1. Your shipments should be addressed as above but include “**For Gazelle Book Services**” and have Gazelle labels on each carton/pallet. The Gazelle shipping labels can be found in the “Services to Publishers” tab on our website then click the link “Shipping labels”. Please keep these labels as masters and photocopy them as required. This will enable Gillship to quickly identify our goods and eliminate any possibility of consignments being shipped to the wrong address.
2. Books should be packed in export cartons and contain sufficient internal padding to withstand the journey. We have found that poorly packed goods often incur damage during the internal trucking phase within Canada. Half-empty cartons should be avoided as these can get crushed when palletised. Gillship will refuse wet or badly damaged cartons. Gazelle will take no responsibility for losses where we consider that these have occurred due to negligence at the point of origin.
3. A **Commercial Invoice** must accompany each shipment showing the total number of books and the value of the consignment. Please e-mail/send the invoice plus a ‘packing list’ to include total weight, number of cartons/pallets, and dimensions to Julie Tessier in advance of your shipment. This is vitally important, as it is from these documents that the shipping manifest is compiled. Please mark cartons 1 of 2, 2 of 3 etc. Please note that hand-written pieces of paper in lieu of proper invoices are unacceptable.

4. Your Invoices should also show one or more of the following Customs Tariff Numbers: -
49019900-1 Books, Atlases and Booklets
49019100-0 Dictionaries and Encyclopedias
49111090-9 Commercial Catalogues and Leaflets
5. Please remember that the cost of shipping to **Gillship** is your responsibility. Do not send goods collect. If you have any problems with deliveries into **Gillship** then please contact **Julie Tessier**, as she will be pleased to advise on collection/delivery of your consignment. Part shipments received into **Gillship** will not be forwarded but will leave on the next available container as soon after all parcels in any consignment are received. Any missing cartons and/or damages will be reported to the publisher from the Gateway directly.

Strict adherence to the above points will protect your valuable books and keep problems to a minimum.

Yours faithfully
